Re: Notice of Final Action - Minor Title V Permit Modification
District Facility # S-6331
Project # S-1142199

Dear Mr. Filkens:

The Air Pollution Control Officer has modified the Title V permit for Wm. Bolthouse Farms, Inc. for equipment located near the intersection of Muller Road and S. Fairfax Road near Bakersfield, CA (Section 10, Township 30S, Range 28E). Wm. Bolthouse Farms, Inc. proposed to temporarily replace Permit Unit S-6331-8, a 510 bhp Cummins model QSX15 Tier 3 certified diesel-fired IC engine (serial # 79287674) powering an agricultural irrigation pump, with Permit Unit S-6331-10, a transportable 510 bhp Cummins model QSX15 Tier 3 certified diesel-fired IC engine (serial # 79323325) (ENG 00377). The replacement engine (S-6331-10) is also permitted as Unit S-416-29-0 at another Wm. Bolthouse Farms facility and serves as a Temporary Replacement Emissions Unit (TREU) for agricultural IC engines at various Bolthouse Farms agricultural operations.

Enclosed is the modified Title V permit. The application and proposal were sent to US EPA Region IX on July 28, 2014. No comments were received following the District's preliminary decision on this project.

Please note that the TREU engine (Permit Unit S-6331-10) operated temporally at the facility, but has now been removed from service; therefore, the permit for the unit will be cancelled.
